

Technical Data

MINIBIO, the airborne disinfection machine

www.iblspecific.com - contact@iblspecific.com - Tél.: 01 41 98 32 20

Disinfectant fogging is fast and efficient. With a powerful compressor, MiniBio allows you to perform disinfection of air volumes up to 100m³.

Electrical data

Supply	230V / 50Hz
Total power	110 W
Electrical cable	5 m

Diffusion data

Product Dosage	Système venturi
Nozzle	Lucite
Product Rate	13mL / min
Disinfectant	APABIO

Air Compressed data

Compressor	Unlubricated oscillating piston
Air flow	27 NL / min
Speed	2800 tr/min
Noise	56 dB

How to use it

Mode	Automatic
Diffusion time	Depending on the specifications of the customer
Delayed start	30 secondes

Structure

Weight	10 kg
Dimensions	h 360mm x l 350mm x L 210mm
Structure	Inox AISI 316 L stainless steel Thickness 2mm Rounded corners
